

Product Information

CR4-RACK

4U System Rack for 3U **CompactPCI®** Boards

Hybrid/Dual-Backplane Versions Available for CompactPCI® and CompactPCI® Serial

Document No. 2029 • 13 March 2012

With the CR4-RACK, EKF offers a series of 19-inch CompactPCI® system racks, which are suitable to accommodate single-size Eurocard (3U) boards. Due to the fan unit, which is equipped with reliable low noise fans for an optimum air-flow, the overall height of the systems is 4U.

Provided with a removable power supply, the CR4-RACK is a universal solution for industrial grade standard applications. Dual- or hybrid-backplane versions are provided for CompactPCI® and CompactPCI® Serial systems. The racks are available as 84HP or 44HP (half width) systems.

CR4-RACK 84HP

CR4-RACK 44HP

CR4-RACK 44HP

Hybrid Systems CompactPCI® & CompactPCI® Serial

Hybrid Systems CompactPCI® & CompactPCI® Serial

Typically, the CR4 series of racks will be configured individually according to the customers needs (see examples below). We can tailor any CompactPCI® system to your special needs - turnkey ready! Please contact sales@ekf.com for an offer.

Custom Specific CR4-RACK
